## Mp3 No Image - What Do You See?

## **DOWNLOAD HERE**

No Image is bringing rock to a new level with a cd journey that is a style of its own, with songs that you can't help but want to here again and again. 13 MP3 Songs ROCK: Hard Rock, ROCK: Acoustic Details: NO IMAGE- "Its not about who you are or what you look like but how the music makes you feel." JC That is what this band is about. From upstate new york in the city of Glens Falls is this bands home. Built on the simple idea of playing music that we like and with the motivation to succeed this is a band to watch. Formed in 2002 No Image released a demo disc on October 15th 2002 entitled "lesson's in argyle". This disc was so well received by fans we decided to embark on a full album effort. "What do you see?" is the result of one full year of writing, recording and producing. The four tracks from the demo cd have been reworked and included on the full album bigger and better than before. The rest of the album is made up of songs ranging in styles and genres but in the end every song has that feeling that you are listening to No Image. During the process of making this album we played many shows including a local Summer jam festival for the fourth of July, a parade and winning a battle of the bands sponsored by reality check to name just a few. These live shows were the groundwork for a lot of the energy in "What do you see?". Please Listen, enjoy and stay tuned. The journey of No Image has only begun there is a lot more music to be made.
