This award winning multi-instrumentalist, Canadian singer songwriter offers an eclectic collection of easy listening tunes which showcase his wistful songwriting. This is Jablonskis 5th indie CD, recorded by Juno Award winning producer Dan Donahue from Winnipeg. Emotional, intelligent, big vocals, tasteful keyboard and rhythm lines, beautiful arrangements with guitar, harmonica and viola solos....call it Americana (even though it really is CANADIANA) - it doesn't matter as it is a signature dr j project. Theodicy is a philosophical argument which tries to explain how a good and all-powerful God could create a world with suffering and evil in it. Faith is tested when bad things happen to good people; some weep, some curse, some go numb, others just walk away. Blessed with the gift of music, I play, this is my theodicy. dr j time is elastic - our lives must bend in unexpected ways sometimes too soon.....
