No drums but great swing, interplay and sensitivity for this new european jazz trio. 9 MP3 Songs JAZZ: Smooth Jazz, JAZZ: Traditional Jazz Combo Details: The Duckstep (Luca Marianini, tp/ Giovanni Belli, gt/ Graziano Brufani, cb) This special trio is born in 2005 and, after a whole year of gigs, has recorded its first cd , thanks to Drycastle records in the person of Maurizio "Bozorius" Bozzi , the producer. This cd contains both jazz standards played with original arrangements and new songs, all performed with a charming and precious interplay. The inspiration for this combo comes from other similar experiences like: Catherine/Harrell/Van De Geyn or McBride/Payton/Whitfield and the same Chet Baker who loved this kind of ensemble. These are all class A musicians, each one graduated in classical music, teachers, well known as session men in symphonic, pop and jazz ensembles, talented, young and experienced..in other words among the best musicians in the European scene.
