

Mp3 The Kangas - The Journey

[DOWNLOAD HERE](#)

Unique computer-generated music written by Roo and Joey, the super-talented Kangaroos... 8 MP3 Songs ELECTRONIC: Experimental, KIDS/FAMILY: General Children's Music Details: G'day sport! My name is Roo, and I am the biggest composer of Kangaroo music since Rolf Harris' 'Tie My Kangaroo Down Sport'!!! This is the first ever CD to have been created using the 'Kangas Sound Editor'. This gives you the means to generate music like it yourself, without needing to know how to play a musical instrument! The track 5 sample By ship, for technical reasons, plays best using the PLAY ALL SONGS hi-fi: broadband button (it sounds distorted with the other options). I have not included a clip of my masterpiece 6. By express train, as I wanted that to be just for the real cool roos (and maybe humans too!) who have bought my CD. The Kangas Sound Editor can be downloaded for free from kangasound.com. You can also see me and my assistant Joey in our photo-gallery at that web-site. Hope you enjoy my CD and using the Kangas Sound Editor. Roo
