Just rap. No fanscy shit just straight rapping. 11 MP3 Songs HIP HOP/RAP: Alternative Hip Hop, HIP HOP/RAP: Rap Details: I won't lie to everybody man. This cd won't be the best thing you ever heard. It was recored in my moms house in my bedroom so the sound might not be that great. All I can promise is straight rapping that means something. I was born in Cincinnati Ohio (Hartwell). I lived there for 12 years before moving out to the burbs between Cincinnati and Dayton. I took an instrest in Heavy Metal and Rap music. I relized that the rappers around the Cincinnati, Dayton area or "the southwest O" (southwest Ohio) where extremly talented and differnt but never got any respect at all. I found I had a small ability to rap and dicided to give it a try. Befor this cd I made about l'd say 20 songs. I never gottin' any bad comments from people about my rapping just compliments but not alot of people actually heard me so that may change. So I said I can make money doing this cuz I can't really do nothing else so I worked at a boring job and saved up to buy a cheep drum machine, cheep keyboard, and 8 track recoreder. I knew nothing of making beats or producing a rap song so the quality may not be that great. I sure as hell can rhyme though. These songs some you may hate some you may love. You may get offended or laugh or be inspired. I just try to tell how it is in my life and the Southwest O and put Cincinnati, Dayton, Middletown, Hamilton, and the surronding area's on the map. Also some socal and political statments by me that may be offensive. If you like Invisible Ink buy it and help me make another one.
