The cosmic soundtrack to your entheogenic life - psytrance with heart, mind and soul. 10 MP3 Songs  
ELECTRONIC: Trance, ELECTRONIC: Ambient Details: cosm001cd various artists - cosmology From the continental bedrock of european psytrance - cosm records proudly presents their long awaited first various artist compilation. Entitled cosmology, it delivers ten fresh and unique tunes from diverse branches of the fractalesque psyelectric culture and blends them into a contemporary cyberdelic circus that bewitches with its deep atmosphere and creative variety. Taking you on a broomstick ride from entheogenic dancefloor stormers to lysergic breaks, psychotropic big beat and full-off tryptamine floaters - cosmology abducts the listener into the futuristic grooves of transformation and cosmic creativity. Starting off with the timeless sunshine smasher Wellenkanister by Audiotopie cosm records first CD leads over into the acidic dimensions of Electric Sheeps The Other. Paraphones whirling madness of Crazy Things and Oddsonos deeply pounding Fine Sequence embellish the exhilarated cyberjourney further and transit into the psy-breaks killer Electronic Outlaw Underground by Digipack and into OnesnZeros liquifying psy-tech groover Floating. After Tomacs twisted Multiversity the haunted and dark atmosphere of 6th Floors Moonstroke gives way to the frenzy of bigbeat-monster Toxygen by Electric Sheep, that is bolstered in the sonic cushion of Strawberry Fields 50ft. Above Ground. 10 of the revenue from this CD is donated to the Multidisciplinary Association for Psychedelic Studies (MAPS) to support the expansion of scientific knowledge in the area of psychedelics, to culturally reintegrate their use and the states of mind they engender. MAPS is a membership-based non-profit research and educational organization founded in 1986. They assist scientists to design, obtain approval for, fund, conduct and report on research into the healing and spiritual potentials of psychedelics. their research results help us to better understand our human potential and bring the tools of science to the study of mental functioning and spirituality.
