

# Power Of Power Politics

[DOWNLOAD HERE](#)

This book provides an intellectual history of international relations theory from 1919 to the present. In this new and much-expanded edition of his classic study, John Vasquez examines the power of the power politics perspective to dominate inquiry, and evaluates its ability to provide accurate explanations of the fundamental forces underlying world politics. Part I of the book reprints the original 1983 text of *The Power of Power Politics*. It examines classical realism and quantitative international politics, providing an intellectual history of the discipline and an evaluation of statistical research guided by the realist paradigm. The second part provides six new chapters covering neorealism, post-modernism, the neotraditional research program on balancing, Mearsheimer's analysis of multipolarity and institutionalism, the debate on the end of the Cold War, and neoliberalism. Through the use of comparative case studies these chapters analyse the extent to which the realist paradigm has been progressive (or degenerating), empirically accurate, and remains a relevant and explanatorily powerful theoretical approach for our current era. EAN/ISBN : 9780511037474 Publisher(s): Cambridge University Press Format: ePub/PDF Author(s): Vasquez, John A.
