The Beginner's Guide to Home Buying is an ideal resource for those who recognize the once-in-a-lifetime opportunity staring them in the face, but who aren't well-versed in the intricacies of home buying. This new guide was written with one goal in mind: To show the average Joe or Jane who wants to buy a home how to do properly during while the bargains are still available. If you don't feel 100 prepared to purchase a home right now, you need a copy of The Beginner's Guide to Home Buying. It's that simple. I want you to play along with me for a moment. Think about your life and where you are today. Now, think about what owning a home could mean to you. I want you to consider the advantages it would offer you financially. I want you to think about the increased level of comfort and improved quality of life you'd

experience. Think about what it would mean for your family. Look, there's a reason why we all consider home ownership a cornerstone of the American Dream. It's life-changing and provides so many massive benefits. There are people out there who are spending their days whining. They're talking about how bad the economy is and they're complaining about the way home prices have plummeted. They claim the American Dream is dead. They're wrong. They might be losing right now due to decisions they made before the bubble burst, but that doesn't mean you can't take advantage of these unique circumstances by buying a home for a fraction of what it was worth just a few years ago--and a fraction of what it will be worth in the future. You can have your chunk of the American Dream. You just need to know how to grab it. And that's what The Beginner's Guide to Home Buying will give you. Look at some of the things this great resource covers: * Understanding your personal financial situation... * Determining how much you can spend on a home... * Realtors, real estate agents and real estate brokers--and what they can (and can't) do for you... * Mortgages--how they really work and what it all means to you... * Making an offer on a home and signing... * Home inspections and appraisals... * Homeowners insurance... * How to close on a home... * Comparing new homes, older homes and foreclosure properties... AND MORE! Plus, it's not written like you're some kind of real estate expert. This is a real resource for real people. The Beginner's Guide to Home Buying does everything short of putting the keys to your new home in the palm of your hand! PS: Remember, I'm backing The Beginner's Guide to Home Buying with an absolute money back guarantee. There's NO risk involved in this purchase. There's no excuse not to move closer to home ownership now. PPS: I can't emphasize this enough. You are living at an idea time to purchase a home. It doesn't get any better than this. The prices are SO low and many properties are SO undervalued that missing these opportunities is almost unforgivable. Make your move today or you may be kicking yourself for years to come.
