

Fertility Preservation

[DOWNLOAD HERE](#)

From the contents: Foreword Preface Contributors I. Overview of Fertility Preservation: Epidemiologic, Social, Ethical, and Medicolegal Aspects 1. The Epidemiology of Fertility Preservation William Murk and Emre Seli 2. Ethical Discussions in Approaching Fertility Preservation Pasquale Patrizio II. Fertility Preservation in Women 3. Ovarian Follicle Development and Fertility Preservation Yuichi Niikura and Joshua Johnson 4. Impact of Chemotherapy and Radiotherapy on the Ovary Maya L. Kriseman and Ertug Kovanci 5. Impact of Chemotherapy and Radiotherapy on the Uterus Abbie L. Fields, Deleep Kumar Gudipudi, and Giuseppe Del Priore 6. Ovarian Transposition Elena S. Ratner, Dan-Arin Silasi, and Masoud Azodi 7. Embryo Cryopreservation and Alternative Controlled Ovarian Hyperstimulation Strategies for Fertility Preservation Bulent Urman, Ozgur Oktem, and Basak Balaban 8. Oocyte Cryopreservation Andrea Borini and Veronica Bianchi 9. Ovarian Tissue Cryopreservation and Autotransplantation Mohamed A. Bedaiwy, Gihan M. Barih, Katherine J. Rodewald, and William W. Hurd 10. Oocyte In Vitro Maturation: Formidable Obstacles on the Road to Fertility Preservation David F. Albertini 11. Whole Ovary Cryopreservation Hulusi Bulent Zeyneloglu, Gogsen Onalan, and Cengiz Karakaya 12. Risk of Transplanting Cryopreserved Ovarian Tissue in Women with Malignancies Javier Domingo del Pozo, M. Snchez-Serrano, and Antonio Pellicer Martinez 13. Gonadotropin Releasing Hormone Agonists in Fertility Preservation Hakan Cakmak and Emre Seli 14. Fertility Preservation in Gynecologic Malignancies Christine E. Richter and Peter E. Schwartz 15. Third-Party Reproduction and Adoption After Cancer: Practical and Emotional Considerations Dorothy A. Greenfeld 16. Pregnancy and Cancer Treatment Christine Laky and Mert Ozan Bahtiyar 17. Fertility Preservation Strategies in Healthy Women Enrique Soto and Alan B. Copperman 18. Approach to Fertility Preservation in Adult and Pre-pubertal Females Kenny A. Rodriguez-Wallberg and Kutluk Oktay III. Fertility Preservation in Men 19. Spermatogenesis and Testicular Function Ciler Celik-Ozenci 20. Impact of Radiotherapy and Chemotherapy on the Testis Carolina Ortega and Herman Tournaye 21. Impact of Paternal Exposure to Gonadotoxins on Embryo and Offspring and the Male Evaluation Kathleen Hwang, Paul Gittens, Desiderio Avila Jr., and Larry I. Lipshultz 22. Update on Sperm Banking Pankaj Talwar 23. Preservation of Sperm

Isolates or Testicular Biopsy Samples Bhushan K. Gangrade 24. Germ Cell Transplantation and Neospermatogenesis Queenie V. Neri, Zev Rosenwaks, and Gianpiero D. Palermo 25. Testicular Tissue Transplantation for Fertility Preservation Jose R Rodriguez-Sosa, Stefan Schlatt, and Ina Dobrinski 26. Stem Cells and Fertility Preservation in Males Marcia Riboldi, Ana Isabel Marques Mar, and Carlos Simn 27. Approach to Fertility Preservation in Adult and Pre-pubertal Males Fnu Deepinder and Ashok Agarwal IV. Protocols 28. Embryo Cryopreservation and Alternative Strategies for Controlled Ovarian Hyperstimulation Bulent Urman, Ozgur Oktem, and Basak Balaban 29. Oocyte Cryopreservation Andrea Borini and Veronica Bianchi 30. Ovarian Tissue Cryopreservation Mohamed A Bedaiwy, Gihan M Bareh, Katherine J. Rodewald, William W. Hurd, and Ashok Agarwal 31. Sperm Preparation and Freezing for Banking Pankaj Talwar 32. Preservation of Sperm Isolates and Testicular Biopsy Samples for Banking Bhushan K. Gangrade 33. Testis Tissue Xenografting Jose R Rodriguez-Sosa, Stefan Schlatt, and Ina Dobrinski Index EAN/ISBN : 9781441917836 Publisher(s): Springer, Berlin, Springer, New York Discussed keywords: Fruchtbarkeit Format: ePub/PDF Author(s): Seli, Emre - Agarwal, Ashok
