From Bill to the "Listeners" : "This cd is the result of my asking God a question some time ago. The songs were selected from suggestions from friends and my personal feelings of songs that represent

'inspirational' periods in my life. I've been told that this is great "DRIVING IN THE CAR" music, hence, the inspiration for the cover graphic. On this project, I personally play all instruments on all tracks. What I thought initially might be a weakness, actually became a strength. I hope this music becomes a permanent addition to your car cd stack."
