Contemporary Gospel, Southern Gospel, Contemporary Christian, Praise 10 MP3 Songs GOSPEL: Contemporary Gospel, WORLD: World Traditions Details: One of the leading names in gospel music Jessie Dixon has written some of the most recognizable songs in the genre. Born in San Antonio, TX, Dixon showed a talent for songwriting at a young age, eventually moving out to Chicago as a teenager to try and make a name for himself. He was soon discovered by singer James Cleveland, who would go on to record several of his compositions. Word spread about his talents, and soon he was singing live to much acclaim. He began touring with Paul Simon as a member of his band and they continued to collaborate after the tour on the next two Simon albums. In his own career, Dixon recorded his debut single "It's All Right Now" with producer Andrae Crouch. It became a modest success, and the next few singles built on that success until he was soon one of the premiere names in gospel at the time. Dixon later recorded his biggest single, "I Am Redeemed," an enormous success in the gospel world that stayed on the Christian charts for almost five years. He continued his solo career as well as writing songs for Amy Grant, Natalie Cole, Cher, and Diana Ross. His participation in Bill and Gloria Gaither's videos and tours have also led to many collaborations with the couple. He has continued to work in the gospel industry steadily through today, releasing albums and touring hundreds of days a year. Jessie Dixon and The Gaither Homecoming Friends have done it again by releasing another hit. Wait tell you experience this Southern Gospel, hand clapping, foot stomping, dance tell you drop CD.
