Honest, soul searching lyrics for the person whose faith isn't found in clich's and pretense, all blended with power-packed vocals, amazing musicianship, and a sincerity that will help you express in words what your heart's been longing to say for years 12 MP3 Songs GOSPEL: Contemporary Gospel, POP: Delicate Details: A sincere and eclectic appreciation of music is evident in their recordings and live performances. Comprised of six members, the Tammy Borden Band has been performing regionally in Wisconsin for almost 5 years. Whether it's an original tender song with acoustic guitars, a jazzy and soulful rendition of a classic tune, a soaring ballad, or a spontaneous instrumental outburst, no two concerts are the same. The same is true for the music featured on Doubter's Prayer, a collection of original diverse music to sooth the soul. "I believe. Help my unbelief." - Mark 9:24 It is this verse that has inspired the latest release, Doubter's Prayer. "I think we limit our understanding of worship sometimes," says Tammy. "Too often we only think of worship as those times when we're on our knees in adoration or praising him with joyful songs. Don't get me wrong; I relish those moments. But sometimes even our questions and doubts can be worship to God when they're offered to him with a sincere heart to know Him more. Admittedly, that has been my faith journey through the years. It's been riddled with questions and unbelief. But God has remained faithful even in my unfaithfulness. It's my hope that this album allows others to be sincere in their struggles and helps them express in words what their hearts have been longing to say for years."
