

Multifunctional Polycrystalline Ferroelectric Materials

[DOWNLOAD HERE](#)

Introduction to multifunctional polycrystalline ferroelectric materials - J. Ricote and L. Pardo (Instituto de Ciencia de Materiales de Madrid, CSIC, Spain)- 1 - Advances in processing of bulk ferroelectric materials - C. Galassi (ISTEC-CNR, Italy)- 2 - Processing of ferroelectric ceramic thick films - M. Kosec, D. Kuscer, J. Holc (Jo ef Stefan Institute, Slovenia)- 3 - Tailored liquid alkoxides for the chemical solution processing of Pb-free ferroelectric thin films - K. Kato (National Institute of Advanced Industrial Science and Technology (AIST), Japan)- 4 - Ferroelectrics onto substrates prepared by Chemical Solution Deposition: from the thin film to the self-assembled nanosized structures - M.L. Calzada (Inst. Ciencia de Materiales de Madrid (CSIC), Spain.)- 5 - Approaches towards the minimisation of toxicity in CSD processes of lead-based ferroelectric thin films - I. Bretos, M.L. Calzada (Inst. Ciencia de Materiales de Madrid (CSIC), Spain.)- 6 - Synchrotron radiation diffraction and scattering in ferroelectrics - L. Fuentes (Centro de Investigacin en Materiales Avanzados, Mexico.)- 7 - X-Ray absorption fine structure applied to ferroelectrics - M.E. Montero Cabrera (Centro de Investigacin en Materiales Avanzados, Mexico)- 8 - Quantitative texture analysis of polycrystalline ferroelectrics - D. Chateigner and J. Ricote (CRISMAT-ENSICAEN, Universite de Caen Basse Normandie, France and Instituto de Ciencia de Materiales de Madrid, CSIC, Spain)- 9 - Nanoscale investigation of polycrystalline ferroelectric materials via piezoresponse force microscopy - V.V. Shvartsman and A.L. Kholkin (University of Duisburg-Essen, Germany and CICECO, University of Aveiro, Portugal)- 10 - Mechanical properties of Ferro-Piezoceramics - D.C. Lupascu and J Schrder (Universitt Duisburg-Essen, Germany), C.S. Lynch (University of California, Los Angeles, USA), Wolfgang Kreher (Technische Universitt Dresden, Germany) and - Ilona Westram (Darmstadt University of Technology, Germany)- 11 - The elastic properties of ferroelectric thin films using nanoindentation - C. Chima-Okereke, W.L. Roberts, A.J. Bushby and M.J. Reece, (Centre for Materials Research and School of Engineering and Materials Science, Queen Mary London, UK)- 12 - Pyroelectricity in polycrystalline ferroelectrics - R. Jimenez and B. Jimenez (Instituto de Ciencia de Materiales de Madrid, Spain)- 13 - Properties of ferro-piezoelectric ceramic materials in the linear range: determination from impedance measurements at resonance - L. Pardo and K. Brebol

(Instituto de Ciencia de Materiales de Madrid (ICMM-CSIC), Spain)- 14 - Domain engineered ceramic resonators - J. Erhart (Department of Physics and International Center for Piezoelectric Research, Technical University of Liberec, Czech Republic)- 15 - Non-linear behaviour of piezoelectric ceramics - A .Alfons and P. Rafel (Universitat Politcnica de Catalunya, Spain)- 16 - Piezoelectric transducers for structural health monitoring: modelling and imaging - F. Montero de Espinosa and Y. Gomez Ullate (Instituto de Acstica, Madrid, Spain) EAN/ISBN : 9789048128754 Publisher(s): Springer, Berlin, Springer Science & Business Media Format: ePub/PDF Author(s): Pardo, Lorena - Ricote, Jess
