

Wading The Tide - Emmanuel Fru Doh

[DOWNLOAD HERE](#)

Wading the Tide is an expression of profound emotions touching on a wide range of issues-personal and political-from the birth of the Cameroon nation, her political meandering, until the state of emergency declared on the North West Province in 1992. Accordingly, Doh complains, ridicules, and pays tribute, even as he instructs and guides on timeless matters of life, all in an effort to draw attention to his country's gradual, downward spiral into anomy.
