Finally... YOU Can Now Create Your Own Personal Mailing List Fan Club And Make Money From It With Every E-zine Issues And E-mail Messages You Sent Out To Your Subscribers - And They Have Every Reason NOT To Ignore Your E-mails! From: Tracy Yates Date: Thursday, October 20, 2005 Dear Internet Business Friend, Are you currently facing any of the following scenarios? (Please check the boxes as you read.) I dont have a mailing list. I know nuts about having my own mailing list let alone how to set one up! I already have a mailing list but somehow its not making me any decent money. I must have done something wrong in the process but I could only wish I knew where the mistake was. I am tired of guessing and beginning to wonder how other Top Internet Marketers make a living solely from their own mailing list. The size of my mailing list is no bigger than a peanut. I want to multiply the size of my subscriber list manifold! I dont think that anyone in my mailing list actually listens to me or even my

recommendations for that matter. I believe that when they see my mail, they would delete it before reading it! Im beginning to feel its absurd that they chose to opt into my E-zine or mailing list in the first place when that is what they do the moment they see my mail - delete. Im beginning to wonder if other Top Internet Entrepreneurs actually get the same treatment... or is it just me? If you have checked one or more of the boxes above, then this is certainly one of the MOST important letters you will ever read. My name is Tracy Yates, and I understand your frustrations. I faced the same challenges you are facing now when I first started my Internet Business. A lot of my precious time were wasted on guessing, shooting in the dark, spending a lot of unnecessary money, and worst still, making myself broke. After years of discovering what work and what does not, I now have a mailing list I can confidently call my own money making machine. But I learned how to build my profitable mailing list - the hard way. Whoever said that building your own mailing list is going to be an easy task! But then, having your own mailing list is one of the most important assets you MUST, MUST (and really MUST) have in your Internet Business because... Your Mailing List = Your Asset = Your Money Machine If you have been in touch with the Internet Business and Marketing world for some time, I am sure that you have heard of the overused saying the money is in the list being quoted by many Internet Marketers. Of course, that is often true only if you harness your mailing list well enough and that your subscribers are responsive that they DO bother reading your mails every time you send a broadcast to your mailing list. But if you are to have an Internet Business, you must have your own mailing list. No other exceptions. If you dont own a mailing list, that could only mean that you dont own a business in the first place. Before anything else, it is important for you to have good reasons to have your own responsive mailing list (and not just any kind of mailing list) in the first place. Consider the following: * If you join a Network Marketing company, your upline would require you to write a list of 100 names of people whom you know. The people you know are your prospects because they might be interested in becoming a consumer or starting their own Network Marketing business like you. * If you own a Conventional B2B Business, your target prospects are other businesses, and their information and contact details are likely to be found in the Yellow Pages or telephone directories. Thus the information found in Yellow Pages and the telephone directories are your list of prospects. * If you play and sell Magic: The Gathering collectible cards, your list of prospects consists of those who play the same card game, too. Would a Pokemon player be interested in buying your Magic: The Gathering game cards? Only if he is a Magic: The Gathering player, too! So, why have

your own mailing list? Because that is where your potential customers are! Now That We Have Established That Having Your Own Mailing List Is Mandatory... (That Is If You Want To Make Money) You are still faced with some or all of the following challenges to profiting from your mailing list: * How to get targeted subscribers into your mailing list with minimum effort, maximum results. * How to develop trust and relationship between you and your subscribers. * How to get your subscribers to give you a chance by opening your E-mails. * How to get your subscribers to buy from you instead of from other people they are subscribed to. * How to create a mailing list system that works without any guesswork and little testing on your part. * How to understand your subscribers needs and interest so you know what product or service to endorse to them! With so many challenges standing in between you and profiting from your mailing list, you must think it is a wonder how Top Internet Entrepreneurs make their money by the truckloads from their mailing list, even though in some cases, their mailing lists are not as huge as you thought they were. But that is going to be a thing of the past because now, I am going to hand my mailing list profits wisdom and knowledge to YOU- all in one book! INTRODUCING... MAILING LIST PROFITS 67 Pages, Letter-Sized, PDF Format Finally... now this is your chance to shortcut your guesswork and mistakes because I have already done them for you! P.S.
