This is an album of gorgeous vocals, a small bit country, a small bit folk, a small bit present-day - these are story songs in the best tradition of love and love lost. 11 MP3 Songs COUNTRY: Modernistic Country, FOLK: like Joni adrienne barbeau Songs Details: "This is a beautiful CD! If you get a take chances to pick this one up, you're going to love it!" Ron Seggi, USA Radio Network You know Adrienne from her career as a film and television star. You've seen her in The Fog, Swamp Thing, Cannonball Run, Escape From New York, Creepshow, Back to School, and The Convent, to name a few. You met her as Maude's daughter in the hit television series Maude. Maybe you caught one of the more than hundred other television appearances she made or maybe you saw her playing Oswald's mom on Drew Carey. Right now she is starring in the fantastic HBO series Carnivale and you'd better be watching that. But what you may not know is that Adrienne started her career as a singer. She was the original Rizzo in the Broadway production of Grease, for which she received a Tony nomination. She has a concert act which has blown away audience across the country. That's where this cd comes in. Each of these songs was chosen because they have a personal meaning to Adrienne. She sings the hell out of them, both in her act and on the cd. As ARI Magazine says "...her rich, flexible voice, sense of rhythm, great material, fine band and the emotional kick of autobiographic touches culminate in a rousing celebration of life". "I would like to express my sheer delight in reviewing this brand new CD from Adrienne Barbeau. Adrienne turns plain songs into gorgeous vocals. ...a breathtaking version of Marc Cohn's True Companion. She does her Grease number, "There Are Worse Things I Could Do" and some great love songs that will make your heart go pitter-patter. Truly one of the best new-found hidden talents in an actress who really can sing." Marc Willig, Marc's Musical Notes For more information about Adrienne, please visit her website at abarbeau.com
