URBAN/R&B: Contemporary urban, JAZZ: Jazz Fusion Details: To all that visit us here at CD Baby, first of all, from the bottom of our hearts we thank you ! but more importantly, I personally want to re-acquaint you with the power you possess every time you log on to an independent music web site, you are letting the major labels know you want and need more variety in the music you want to purchase, and believe me they are hearing you, and feeling your impact, indie music is rising, so from all of us hear at Adonis Records, all of the other artists hear on CD Baby, and un-signed indie artists every where, thank you, thank you, thank you !!!!! When I recorded this CD, I wanted to say musically what I was feeling at the time of the recording, coming in from shows, being tired but still laying tracks, or just not having the time to put all you have into one particular piece, or just not being sure if you've done your best, but you come to terms with the fact that if you've played what was in your heart and made it FEEL good, that is your best, you tell yourself, "your next CD will be different, as far as the music, and better as far as the production, but really, it will always be your best as long as your heart is in it". doing a independent project is a labor of love from the word go, all of the preparation, the selection of the songs, the raw material, that will soon become a finished product, all of these things must come from you, and you think about the day when you'll have a recording budget, a staff to do all of those things that are so important and must be done, so all you have to do is concentrate on the music. The reality is for me that rather those things happen or not, I'll still be playing music, because I love it. my life, and my world is music. my family is my heart, I share both in this CD, I hope you will listen, and add it to your collection, Its not the best, its not the worst, it a life in the day of Carl McDaniel. THANK YOU FOR YOUR TIME, AND ALL OF

US HERE AT ADONIS RECORDS WISH YOU PEACE, LOVE AND GOOD LISTENING... Carl McDaniel
