Show all album songs: Serenity Songs Details: Celita is a hip hop spoken word artist based in Atlanta, GA. Her poetry stems from some real issues that shes dealt with in her own life, presented to God, and then uses His response to hopefully help someone else. If there was no answer or if, for whatever reason at the time she wrote the poem she heard nothing, then she leaves it that way. No clich closings to make things pretty, naw, this is real life, real talk, and the real God she serves doesnt always answer right away. Shes been writing for 11 years, but doing spoken word and performance poetry for the last 7. Although she has graced many stages in Georgia and beyond, she would love to grace your home with her album.
