loose and lyrical. greg brown's got some chicken. john hartford is bringing flowers. you're invited to eat and listen. 12 MP3 Songs FOLK: Traditional Folk, ROCK: Acoustic Details: Candlelight and Twine of the eleven songs eight are from a project I completed the day before christmas. my goal was to write ten love songs for m' ex-lady. I gave her the CD (only one copy in existence) for the birth of baby jesus day. so really she deserves much credit and praise for musing me. only silver sips is an older tune. this is a record of transition of leaving California and eventually arriving in boston where I continue to be amazed at life unfolding. and still, I feel as though transition isn't a term and neither is change for that matter. without them I'd be ashes scattered at my favorite place. this CD is dedicated to the memory Jonathon Zimmerman.
