Background Music including lullabies to fit your mood with soft dazzling woodwind duets, a hint of light vocals and mellow strings with Call and Response. 14 MP3 Songs WORLD: World Beat, KIDS/FAMILY: Kid Friendly Details: About Kelesha: I was born in Shreveport, Louisiana. I moved to Oakland, California at age five. I studied with Lupe Duran, student of world renowned Jean-Pierre Rampal. Most recently, I attended San Joaquin Delta College, where I studied with Caryl Scott, who was Principal Flutist for the Stockton Symphony. Although you can sense my classical background, my music is mixed in style. About the CD: I enjoyed recording Track 14 the most! It almost felt like a live performance. A sample from the expressive vocal and oboe duet (featuring Tanya Wilson and produced by Studio 132) can be heard on my website along with the other songs on the CD. My second most favorite song to record was Track 8, an upbeat remix (produced by Moton Productions) that introduces a lighter set of songs. I hope there will be at least two or three songs that you will come to know and love. See my website for news, information and details about upcoming events.
