country music 8 MP3 Songs POP: 60's Pop, COUNTRY: Traditional Country Details: I was larning to play guitar when I was about seven years old, on my aunt Maggie's knee. Then when I was a little older, my cousins and I got together and thought we had a band ha ha. Any way when I finished college I formed a band in Reno, Nevada. We played the Casinos, private parties, fraternal clubs, redio shows, political party events such as the gig at the Bonanza site at Lake Tahoe where we entertained for Paul Laxalt when he ran for governor of Nevada which he won.Later in Sacramento, Ca. I formed a band called "Tahoerags" where we played mostly local gigs. At this time I also built a recording studio and recorded many of the local country bands in the area. At that time I also sold CD's on the internet at MP3.COM. Today I live in the Twin Falls, Idaho area and have a band called RAGS BAND. I am on the internet again as the following: Rags49Band@garageband.com. You can contact me on the internet at ernie49@cableonealso. Thank you for buying my CD's.
