"Absolutely phenomenal.. An embodiment of peace.. [she] is one of the most amazing voices of our time."

Vadim Koperwas, Canadian Film Director "Flawless. Experience Peace with Sanctuary.. Deeply healing...from beginning to end this CD puts you 10 MP3 Songs NEW AGE: Healing, WORLD: World Traditions Details: Sarah West Healer, Teacher, Author, Visionary International Recording Artist Ms. West travels internationally presenting at conferences, teaching, giving Healing and Counseling Sessions, giving TV/Radio interviews and offering Sacred Concerts for Innerpeace and offers goodwill work for ecological directives and helps underprivileged children through orphanages and schools. She has spent this past year in South America, largely in Peru. Currently, she is touring in North America and will in Great Britain and Europe following. Sarah West is one of those truly rare phenomena that Divine Providence elects as a pontifex, or bridge, to span the gap between actuality and possibility, between what humankind believes to be true and what is sensed intuitively to be true. This is no small matter. The greatest minds of every culture and of every age unanimously speak of another world, that to truly live is to surpass oneself, folding back to that astonishing part of us that partakes of this still point. Sarah West gives audible life to this stillness, this possibility, both through her singing and speech. As a result, she is able to touch the deepest recesses of the heart, moving them into alignment with the world behind appearances, the world, which the greater part of humanity yearns for now as never before. Stated differently, Sarah West is about that uncommon depth, the stuff of genius which we all recognize immediately, that comes along in a rarefied embodiment to remind us all what this life is and what it is for. As a concert veteran of some forty years, and as someone who, himself, has performed with some of the very greatest musicians in the world, I can say without qualification that Sarah West is in a class by herself, embodying ideals both musically and personally that situate her as a harbinger of the kind of artist

this planet of ours demands. Fortunate indeed are those, like myself, who, having heard, knew, and having known were forever changed. This is Ms. West's legacy, her gift to the people of the Earth. Paul Jones, Composer, Concert Pianist Enlightened Audio Designs Fairfield, Iowa "The voice has the ability to heal all. As we pray, sing, chant, tone, we purify our consciousness as well as our physical body, for as our cells, DNA, atoms, organs, blood, vibrate to this Call - we circulate a new consciousness, we embody Truth, massaging from the inside of our beings - harnessing an enlightened consciousness. Pure Sound, by Sarah West The prayers of One are heard throughout Eternity. Don't underestimate the power of your Voice. You are One. Alone and yet indivisible. And united and connected by all... As one commands Peace - from the inner most dwelling place, we reach into the Ever Existing Inner Peace. Peace has never left Us. It is our Eternal Home. It is our True Nature. Wherever we roam."
