Originally released in 1982 the 12-song Boomerang showcases their highly polished approach to melodic songwriting and guitar-based production in what has been described as a string of radio-friendly singles.

18 MP3 Songs POP: Power Pop, POP: Beatles-pop Details: Boomerang was Shoes 3rd major-label release and demonstrates Shoes knack for creating melodic, guitar-based pop/rock songs. Recorded at Chicago's CRC (Chicago Recording Company) in the spring of 1982 the songs here range from upbeat to moody to lush, vocal landscapes with Shoes' underlying core of guitar riffs and punchy bass lines. The opening track, In Her Shadow was made into an impromptu, "unofficial" video from an appearance on a Madison, Wisconsin television show in response to MTV's request for a new video from the band. MTV also aired a short interview clip of the band recording in the studio on their Music News segment.
