a mixture of R&B, funky reggae, ballads and hip-hop. 11 MP3 Songs URBAN/R&B: R&B Pop Crossover, WORLD: Reggae Details: Singing since an early age from the beaches of Kingston, Jamaica, I moved to New York in hopes of becoming an international Reggae artist. After about 6 years of working various jobs, I decided to move to Phoenix, Arizona where I first performed in 1995 live with various local bands such as "AZZ IZZ, One Blood, Dee Dread and the Zion Knights," as well as others across the state. Finally, in 2002, after many long years of struggle and effort, this is the birth of my first CD, FINALLY! It's Here. I choose to refer to my music as having an urban R B sound with a touch of reggae. While listening to the clips you will be able to hear the variation in my music from upbeat dance music to "sit by the pool with a drink" kind of music! I wrote all my songs with personal meaning, as they reflect all the days of my life.
