Details: From Philadelphia, PA, the home of original music, the latest Tommy Eichmann project is the culmination of years of talent and ambition. Reaching his breaking point of business driven pop-culture and the myriad of shredding guitars that every Berklee student encounters, Tommy Eichmann is on a journey to recapture the essence of music that seems to be lost in a world of fantasy. Drawing from an array of influences, from Billy Joel to John Mayer, Tommy's soothing voice and lyrical intuition combine for an instantly recognizable sound. The dynamic range of emotions in this fresh brand of pop is complimented by a blissfully melodic, yet rhythmically driven, musical palette. Now with a group of talented and dedicated musicians, Tommy Eichmann is ready to begin his journey... Tommy first discovered his love for songwriting at the age of 15, with the creation of "All Roads", the first track from his debut release When the Morning Comes. While studying music and songwriting in high school, it became clear that Tommy's passion for music would take him on a lifelong journey. "For me it began when I heard Billy Joel's, 'Scenes From an Italian Restaurant'. I heard the amazing story that he was trying to tell, and wanted to make people feel the same kinds of emotion through music." Tommy's first experiences as a performer were in cover bands during high school. Despite the valuable experiences that these bands offered him, Tommy found himself unsatisfied, lacking an outlet for his own creativity. His insatiable desire to perform his own music led him to venture out as a solo artist, playing local venues and coffee houses. "When I started playing out, I finally had the freedom that I craved as an artist. But, I really did miss playing with other musicians. So I called my best friend (and current drummer), Brenden, and asked if he wanted to start a new band. We called up some guys that we had played with on

occasion, and put a group together." Tommy's band has gone through many incarnations, the most recent of which has afforded him the opportunity to fully express the powerful emotions that are so present in his delicately crafted songs. The strong chemistry between the band members proves for a fun and exciting live show, as well as a deeply personal and emotive record. "I'm incredibly excited about my debut release, When the Morning Comes. I am lucky to be backed by four of the most talented musicians that I have ever had the opportunity to work with. I truly hope that people are able to identify with my record. There is a lot of reality there, a lot of raw emotion. These songs and this record are not for me, or the guys in my band. This is for the people, people who long for pop music with reality and substance."
