A signature mixture of pop, rock, avante garde madness, combined with just a touch of country twang. 20 MP3 Songs in this album (33:03) ! Related styles: POP: Quirky, ROCK: Post-Rock/Experimental People who are interested in Pavement Guided by Voices Grandaddy should consider this download. Details: This is our first full-length album. Like our first release- It was recorded in the cramped confines of a 60's ranch home bedroom in Doraville GA. Some of our influences (aside from rudderless experimentation) are Guided By Voices, Pavement, Ween, Brian Eno, Syd Barret, and The Band.
