PRESS REVIEW Carolyn Vargas has that certain way of luring you into her smooth adult contemporary sound with her beautiful voice and eloquent songwriting style. The music is very refreshing and has the tendency to pull at your heartstrings and open your soul. There is always a spiritual value to her music and a feeling of peace and tranquility. There is almost a world sound to this music which gives it an added flavor that is somewhat unexpected, but easily accepted. Carolyn has that beautiful voice that contains a lot of control and an almost operatic effect. I have to say that I really enjoyed this music, but because of the sheer excellence, found it hard to find words to express my feelings. That's when I know music is at it's best. This is music that proves that point entirely. -Michael Allison -
