[DOWNLOAD HERE](#)

"Bridge from the past..." is a collection of mostly movie themed tracks from Chris Huelsbeck who has written music for over 90 software titles incl. the highly acclaimed "Star Wars - Rogue Leader" for Nintendo Gamecube... 14 MP3 Songs ELECTRONIC: Ambient, ELECTRONIC: Virtual Orchestra Details:

"Bridge from the past..." is a collection of mostly movie themed tracks from other Chris Huelsbeck CD Albums as well as some previously unreleased material. This CD was available for a while on mp3until they shut down. The music has since been remastered from the original recordings for this new release to preserve the best audio quality. Chris Huelsbeck was born 1968 in Kassel / Germany. He started playing and composing music at a very young age. In 1983 he became very interested in Video Games as well as Music technology and learned programming and making music on the legendary Commodore C64 computer. Three years later he won first place in a music contest of a German computer magazine. This was the beginning of his career as a professional Composer for Computer and Video Game Soundtracks. Since 1986 he has written music for over 70 titles incl. the latest Game project "Star Wars - Rebel Strike" for Nintendo Gamecube... Currently this album is only available in CD-R format.
