CDBABY 8 MP3 Songs ELECTRONIC: Pop Crossover, POP: Folky Pop Details: Armenian world music artist Gor Mkhitarian plunges headfirst into the genre of mainstream alternative American pop for his eclectic debut eponymous debut, GOR. Having recorded three successful solo albums in his native Armenian tongue, GOR radically switches directions by fusing the ethnic elements of his past with the new Los Angeles multicultural imprint of today by presenting all new works in English. GORs new musical creation bears his trademark everyman appeal while probing immediate contemporary social issues. GOR also features several guest artists such as oud legend John Berberian (Middle Eastern Rock/ Verve Forecast), vocalist Sebu Simonian of Aviatic, and co-producer Erwin Khachikian (Slow Motion Reign) on keyboards in creating a blender of intelligent folk pop music that will remind listeners of a young Peter Gabriel. This package also includes music videos directed by Roger Kupelian (Lord of the Rings). For more on GOR, please visit gormusic.com
