an intimate, open voice and passionate, lyrical songwriting 9 MP3 Songs FOLK: like Joni, FOLK: Modern Folk Details: Jenny Yasi is one of my favorite new artists. Her well crafted tunes hold themes of nature, love and longing, and are both compelling and intimate. From the deliciously dreamy "Stranded on a Sandbar," the open air reggae feel of "Lonely," a jazzy "Between Me and You," to the sly swing of "Woolworth's," Yasi tackles a ton of genres, and makes them all uniquely her own. Her literate lyrics read like a private journal, while Jenny's jaw-dropping voice is warm, sensuous and expressive, with power and flexibility to spare. Jenny Ruth Yasi's "Singing Rocks" is a quiet masterpiece. David Malachowski, guitarist with Commander Cody and his Lost Planet Airmen, ex-Shania Twain.
