KIDS/FAMILY: Children's Pop, KIDS/FAMILY: Kid Friendly Details: ParentMap Review: "Stomp Yer Feet!
It's music for families with parents who don't want to divide their CD collection into "ours" and "theirs."
Ballard resident Johnny Bregar's kids' CD -- and his first solo release -- has the low-key sound made popular by Dan Zanes, with jazz-, blues- and folk-influenced arrangements of childhood standards and sweetly humorous original songs... Standout tracks include the beautifully written Moon -- about a child who wants to touch everything he sees -- and a gentle, singable Froggy Went A-Courtin'. Bregar's singing on the CD sounds intimate, as if he's performing for a very select group." Stomp Yer Feet! is a CD full of 15 songs for kids that wont drive parents crazy. The idea behind this CD is to try to provide great music for kids and families in a context that they are familiar with but with a new twist. Youll recognize most of the songs, but they are more folksy and bluesy this time around. Its my own Johnny Bregar twist on some of the classics. I hope you and your kids like it!
