

Mp3 Liz Ammerman - Red Chakra

[DOWNLOAD HERE](#)

Ambient harp based sounds; both gently stimulating and soothing, like the wind, and grounded in a root tone. 10 MP3 Songs NEW AGE: Ambient, ELECTRONIC: Ambient Details: Ambient harp based sounds; both gently stimulating and soothing, like the wind, and grounded in a root tone. Red Chakra is based on a low C note, associated with the first or root Chakra. Red is the color most commonly associated with this Chakra. The music is meant to soothe and contemplate. The polyphonic structure is based on the track Harp from my previous CD, UnderWater. Harp in turn is a modified version of Starfish, played backwards and smoothed to create a sonic fabric. The texture of Red Chakra is structured so that the first and last tracks are the most open and least intense, while the greatest activity occurs on tracks four through eight. Layering of repeated motifs allows each track a subtle difference, yet may induce a meditative state.
