A contemporary blend of love songs and dance, with the Smooth Groove of R&B/Funk with old school flavor. 7 MP3 Songs URBAN/R&B: Soul, URBAN/R&B: Funk Details: I was born in Westchester County NY. I developed a love and passion for music in my home church (Bethel Baptist Mt. Kisco NY) where I sang and played for the choir. I studied music for about three years and had the opportunity to play in a classical concert at New York's Carnegie Hall. I graduated from Fox Lane High School and furthered my education at Morgan State University. At Morgan I formed my first band and played in many of the local clubs in Baltimore Md. Somewhere around the age of 18 I developed a natural talent for both writing and arranging music/lyrics. All songs on my upcoming CD were written by me for your enjoyment. Music has always been my passion and a source of my inner strength through both good and bad times. I thank God for the gifts he has blessed me with and hope to someday make a difference in the life of others through my music. I enjoy my social network because they are real with unconditional love, which is hard to find in today's world!
