Sounds like a demo for hee-haw or blue color. Funny country 10 MP3 Songs COUNTRY: Outlaw Country, KIDS/FAMILY: Kid Friendly Show all album songs: The Wonderfals Songs Details: The Wonderfals were created in Widget Studio as a stress breaker between extremely difficult sessions. The guy's were trying to work long hours, difficult assignments and not go nuts. Many of the tunes were meant to be funny demo cuts and when they started selling as masters we just let it happen. We have individual albums on each singer/player plus more funny country with a little bit of cautious Gospel that we hope to release soon. If these do not sound like normal records, thats because they were never intended to be NORMAL or RECORDS but as we all know, when the money comes the status can change. We hope you enjoy these and that they minister to Your funnybone as they have to ours.
