Examination of the moral foundations of liberal societies through the role of Christian belief in public policy. Politics, Theology and History is a major new book by a prominent academic and an active politician. It ranges widely across the disciplines of theology, political theory and philosophy and poses acute questions about the basic moral foundations of liberal societies. Lord Plant focuses on the role that religious belief can and ought to play in argument about public policy in a pluralistic society. He examines the potential political implications of Christian belief and the ways in which it may be deployed in political debate. The book discusses the place of religious belief in the formation of policy and asks what issues in modern society might be the legitimate objects of a Christian social and political concern. This important study of the relationship between religion and politics will be of value to students, academics, politicians, church professionals, policy makers and all concerned with the moral fabric of contemporary life.
