ATTENTION: If you want to get more traffic to your websites, by doing something you ALREADY do, read on... "Use Wp Watermark To Quickly And Easily Brand Images On Your Wordpress Site With YOUR URL!" Turn Images Into SITE TRAFFIC With A Couple Of Clicks! "Grab The Wp Watermark Plugin For Wordpress With Full Private Label Sourcecode Rights, Including This Page, For Less Than A Coffee?" The Wp Watermark plugin is a tested and proven tool that will allow you to instantly brand your blog images on the fly. It is released under the GPL License System, so you are free to edit it any way you wish! Use it, sell it, or give it away for free - it's up to you! ** This Salespage Included! ** This package includes Wp Watermark, eCover graphics(X3 sizes), and this very salespage. You can set this up for sale

or for free on your own site immediately, and start collecting opt-in subscribers and sales! ** New AND Past Images Branded Instantly! ** That's right! Not only will EVERY image you upload be watermarked with YOUR URL/text, but you can also apply branding to all of your PREVIOUS images with a couple of clicks! (Branding past images is an optional feature, you may choose to only do future images - it's up to you!)
