(The software is for both Windows PC And Macintosh users!) Thursday, 14:08 PM From Dirk Dupon Publisher of "Web Site and E-zine Promotion

Made Easy!" Dear Internet Friend, Before you continue reading, please take a few seconds to participate in my free mini-questionnaire below... There are only 3 questions, and I promise you that, when done, you will know if the information on this page is for you... or if you should leave this site, and spend your time on other things... Here we go... Question 1: Would you like to discover how you can send automated and targeted traffic to your web site, without spending tedious hours on search engine listings -or even better, without ever bothering about submitting your web site again? YesNo Question 2: Would you like to find out how you can email people on a regular base, offering and selling them the products or affiliate programs you promote, without ever being accused of SPAM? YesNo Question 3: Would you like to have a virtual assistant working for you -for FREE-, taking care of your customers, collecting addresses, delivering your information, inviting them to return for new products, all this completely automatically, 24/7, even while you are on vacation on a sunny beach, or in bed, sleeping next to your loved one? YesNo Thanks for your input. Now, let's see the result... If you have selected "NO" to all 3 questions, then you can close this web page. I won't be sad if you leave, because the information I'm about to share is just not for you, and I don't want to waste your time... However, if you have selected "YES" to all 3 questions, it means you have an interest in this amazing Internet adventure, and I urge you to keep your eyes glued on your monitor screen, because you're about to discover the most important information you'll ever read on line. I promise you, at the end of this page, you'll never worry again about spending money on a bottomless pit of "FFA blasters," "bulk lists," and other "promotion software scams" to make people click to your Web Site. Let's start... You see, a Web Site or an E-zine can be a real cash machine... making you good money... and if you follow my advice... very good money too :-) A Web Site is always available, and can automate your tasks, to minimize your effort... and maximize your profit! However, there is ONE thing that you need to do, if you want to see result from your Web Site -or E-zine- and that is; you'll need to send traffic to it... .. and the only way to do this is by... PROMOTING IT! Forget the HYPE... Internet promotion or marketing isn't as easy as some people claim. You can't just put up a Web Site or start an E-zine and wait for visitors or subscribers to show up. Most of the currently selling Traffic Manuals tell you to mega-submit your web site to the search engines, post to Free For All sites (shame, shame, shame!), and all the other bad methods, but they never reveal how you can create continued traffic, and do this without wasting hundreds of dollars in unnecessary services or projects! You may forget expensive Internet Marketing theories too... .. most of these courses tell you how to "brand"

your name or company, and never come to the real point... .. and that is: sending people to your site. What you need are concrete steps and specific directions to take to market your Web Site, E-zine or any on line business with a minimum time and money. Take it from me... I used to spend a lot of money on web site submission and announcement services, I ordered every search engine placement, and "High Traffic Manual" I could lay my hands on, and guess what... .. I wasted a lot of cash, and absolutely nothing happened! So I finally gave up optimizing my web pages to please the search engines and decided to learn from how the pro's did it. To my big surprise, I discovered how the heavy traffic Web Sites with thousands of daily visitors, and E-zines with large subscriber lists, all used FREE promotion and advertising techniques to become -and stay- successful! I was shocked and excited at the same time when I found it out! Of course, I started copying their smart promotion methods and tips, and finally I started to make money, instead of spending money! Today, I keep the cash I used to spend on marketing and promotion experiments right in my own pocket :-)

And now I'm about to share all these tips with you, so you too can get the same result! Testimonials: Dirk, I'm really impressed by your work. Of course ever since I read your emails for the first time this past summer I knew you were one of the good ones. I'm with you now, and I'm sure I'll be with you for the long haul as I give every effort to learn this business. I'm convinced that by reading as many articles and books that you have produced, and will produce in the future, I'll read yours first and compare with some others. Yanik, Jimmy Brown, Cory, are good authors as well, but my fate has attached to your coattail and away we go. My creativity will be enhanced with the study that I'll give your honesty and writing. Thanks, Seabron Page "Dirk, people like you are a rare bird. There are too few people in the world who are in a help mode, but you're one of them, and I'm very glad that you appear in my mailbox on a regular basis. Thank you for that.
