Wow just when you thought we was done we find ways to re-invent ourselves, this is our latest kit Kingbeatz 100 Hot Sound Fonts these are incredible soundfonts put together by Kingbeatz.com. You will get Synth leads, Bass leads, Ensembles, Pianos, and Synth Effects. These sound samples will give your beat production the edge over your competition. These soundfonts come from the Kawai k4, Roland XP30, Triton, and Yamaha DX7.....We worked on these sounds all day, this is Volume 1 and we plan to do a volume 2 in the future. These are sf2 files and you can play these files in Reason and FI Studio, Make sure you're software program allows you to play sf2 files. Watch video below of a snippet of what you will be getting. All our sample kits contain royalty free one-shot wavs, which means you are free to use these sounds in your own commercial music production without any additional fees or agreements. You may NOT however, duplicate, redistribute, trade or resell this collection as your own sample kit or

sound collection.
