London Bus Stop Atmos - Night (sfx Sound Effect Wav)

DOWNLOAD HERE

This 4'30" file was recorded in Central London early one Saturday morning whilst waiting for a night bus. You can hear the hubbub of people chatting as they wait, buses arriving and departing, and people running for the bus. All files on sale by Sevenleaf SFX have been recorded by professionals and are available for you to download as 16 bit 48kHz stereo wav files. Previews are low quality mp3 files with security watermark beeps. Purchased files are broadcast quality wavs without watermarking.
