Simple, melody rich, acoustic music in the classic singer/songwriter style. Songs from the heart. 10 MP3 Songs EASY LISTENING: Adult contemporary, FOLK: Alternative Folk Details: My guess is that even from an early age I always wanted to play the guitar. Especially when I look back and remember the many years I spent honing my abilities in the demanding art of tennis racket playing! Emulating my heroes and perfecting every guitar solo in front of a mirror. One could say I was a little star struck. I've been playing the real thing for about 23 years now and I guess I'm still star struck. I've been in six bands ranging from blues classic rock cover bands, to punk and power pop showcase bands. I played the role of lead guitarist most of the time and in about half of these bands, I was the only guitarist. The last band I was in broke up around eight years ago. Since then I've been on my own playing and composing on acoustic guitar for the most part. In the last few years I've put together an E.P. and another full length album worth of original material. My first record project called The Simple Things and more recently, My Winter Window. I've recorded both of these records with my good friend and engineering wizard Adam Sullivan of (Great Magnet Recording). As far as the future is concerned, I just want to keep playing and improving my songwriting and performance skills. Learning how to play guitar has been one of the most fun and satisfying experiences in my life. I'm not about to stop writing my musical history any time soon!
