"Funky Jazzyrap with a message for all or just sit back and enjoy the grooves" 13 MP3 Songs

URBAN/R&B: Funk, JAZZ: Jazz Fusion Details: "Funky JazzyRap with a message 4 all or just sit back and let the groove make you move, cause you gotta put on your dancin shoes"! The Mercy Mercy Mercy/Georgia On My Mind medley was recorded over 10 years ago for a demo tape. I was listening to the tape one day and Jay Klum's rendition of "Georgia" blew me away, I just had to share this with you. Though the tape was in bad condition, I felt the music of Jay (vocal keys) and Paul Ramsey (bass), my freind since I was 5 years old, over shine the tape recording quality. I played with Jay for many years in Tokyo and Paul and I grew up playing music together in Queens, NY. Well..... to make a long story short, I thought it would be a special treat for you and us to finally have something on record together, that we could share with you. I really hope you may get some pleasure from "KICKIN IT". Please enjoy!

Cecil Monroe was born in Woodside, New York, on August 25, 1955. He received his first drum set at the age of 14. His elder sister, Rai, influenced him in Rock, R&B and Fusion, while his mother, Eunice, and father, George, played an important role in influencing him to a wide range of Jazz. Cecil's younger brother, Ron, is also a professional bassist, performing in New York. Cecil, for the most part, is a self-taught musician, although he did study for some time at Harlem's Jazz Mobile Workshop, under the direction of the late Fredrick Waits. In 1978 Cecil came to Japan, after joining the Air Force. While in Japan he began playing with local musicians, which led to a long music career in Tokyo, after seperating from the Air Force. Being influenced by a variety of music, has rewarded Cecil versitility, power and sensitivity to play a vast range of music, (Jazz, Rock, Funk, etc.). He is recording and performing throughout Japan and sometimes abroad.
