Contemporary Jazz Standards, Acoustic guitar 10 MP3 Songs JAZZ: Smooth Jazz, URBAN/R&B: R&B Pop Crossover Details: My Romance is a great collection of romantic music celebrating those unforgettable moments. Body and Soul, Someone To Watch Over Me, The Nearness Of You, Beautiful Love, My Romance. All of these songs sending a message of Love and Hope. This record is similar to Urban Standards and Urban Standards Vol. II because all the arrangements combine Jazz standards with contemporary grooves and flying guitar runs. This time around I added more orchestral elements such as Cello, Flugelhorn, Flutes and Strings all played with my guitar synthesizer. In addition I am introducing my new handmade classical guitar by German Vazquez Rubio. Another unique element to the record is the addition of the Mini Moog. During a recent trip to Europe, I decided to bring one back with me and found it fit perfectly with the sound of the new record. I also wanted to insure the best possible sound quality so I had the record mastered by Evren Goknar at Capitol Mastering. And as always, you will hear some outstanding performances by Leon Bisquera and C.C. Thomas Jr. I am extremely pleased with the outcome and hope you will enjoy listening to it as much I enjoyed recording it. With Love; DIRK K
