(Singer, Songwriter and Musician) I have been professionally playing in different kinds of commercial bands, playing a variety of music ranging from pop-top 40, country-rock and pop-rock to latin and disco. Ive been playing full-time and part-time for about 25 years as a lead vocalist and bass player. In 2004, I decided to retire from the commercial gig-playing industry and focus on my original music. I have been writing songs since I was 17 years old, way back in the late 70s, and only dreamed of recording them someday. Now I have finally recorded them, courtesy of my home studio and have made 3 original CDs, thank GOD ! My first CD album, completed in January 2006, is entitled Green Eyed Lover. My second CD album that I finished in May 2006 is entitled LOST. The songs from both albums were written back in the late 70s and in the 80s and were properly arranged by me this year. Both albums are compilations of different styles of music, from love songs to songs about life, from songs about yesterday's memories to afterglow mood songs and all come from the heart and soul of the writer. These songs are influenced by the sounds of country-rock, 70's and 80's pop-rock and island tempo music. My latest accomplishment is my third album entitled LIVING which was finished in July 2006. This album is a compilation of specially chosen songs from the Green Eyed Lover album and the LOST album that have been reworked and rearranged by the songwriter. Im creating all of these albums solely for personal growth and a sense of self-accomplishment. For me, recording these songs has been a dream come true. Now, Im starting to compose new material and Im hoping that one day, some of these songs will make it to the top-40s, GOD willing. Thank you and God bless, joeY.
