Classical music influenced a little bit by Chopin. But also more modern and folcloristic elements comparable with Yann Tiersen. There are also melodies in it which can be counted to the pop genre. 10 MP3 Songs CLASSICAL: Contemporary, WORLD: Western European Details: I was born in 1982. I had keyboard lessons for three years since 1990. After that I had piano lessons for 7 years. Then I entered in a band in 2003. But because the progress of the band was too slow for me I needed something to get my creative energy in. This was when my solo-project was born. My music are solo-piano-pieces which are influenced by hearing Chopin (logical that my music is MUCH better than Chopin's ;-). All the pieces you can find on my CD "Hinterm nchsten Hgel".
