"With nine sparkling originals that include keyboardist Dan Siegel as a special guest on one, and an awesome Tower of Power-'esque cover of L.T.D.'s "Back in Love Again", ON THE MARK is what today's dynamic sounding Smooth Jazz is and

should be all about." No rookie to the Smooth Jazz scene, Mark has recorded with Dan Siegel, performed at festivals around the country with other artists including Grant Geisman and was featured with the Greg Adams band for almost 3 years. While touring, Mark was initially struck by the crowds who attended many of the Smooth Jazz concerts. "I was really inspired when I started playing many of the festivals. I couldn't believe how responsive these crowds were to our music. People would often come up to me after a show and tell me how much they were affected." Many people asked Mark if he had his own solo album, so soon it became his top priority. "On the Mark" is rich in musical energy and scope, allowing the listener to discover something new each time they play a song from it. Mark's playing has an intensity and depth that listeners can immediately identify and relate to. He knows how to engage and connect with the audience creating a dynamic, soulful energy that pulls the listener in.
