

Mp3 Nigel McTrustry - Excursions

[DOWNLOAD HERE](#)

His debut EP showcases his unique soulful voice, which draws the listener into his world of warm transcendent folk/rock. 6 MP3 Songs FOLK: Folk-Rock, ROCK: Aussie Rock Show all album songs: Excursions Songs Details: Nigel McTrustry's unique, soulful voice draws the listener into his world of warm transcendent folk/rock with songs that have a backbone of emotional and honest storytelling. With the kind of raw integrity that echoes influences from the great singer songwriters of the 60s and 70s he is unafraid to connect to his audience directly and without pretence. Originally from Wollongong, Nigel developed as a musician playing with his band at parties, in garages, lounge rooms, halls and pubs and becoming an important influence in the developing Wollongong music-scene. Afterwards, travelling the world with his backpack and guitar, Nigel continued to hone his song writing craft and musicianship through writing and playing his own songs, and listening to and absorbing an eclectic mix of music. I reached the stage where I liked what I was writing so I just had to get it down and out there. Recorded in Brisbane, Australia, the debut EP Excursions captures Nigels distinctive sound and is out now. You may just find that wild mercury sound here.
