BLUES: Guitar Blues, ROCK: 80's Rock Details:
"Totally Savage" is an Atlanta, GA-based three-piece, blues-rock band, which features original and inspired tunes plus classic blues, rock and southern rock. Back on-stage after almost a year putting together a new lineup, the band has played over 95 gigs since July 2003, has recently appeared on Atlanta's "96-Rock" and is now the hosting band for one of Atlanta's best and most-talked-about "Open Mic Jam Sessions" at "The Firehouse", mixing it up with many of Atlanta's best and coolest players. A high-energy act, the band is a "hybrid" of sorts ... think SRV meets Van Halen, meets The Allman Brothers meets ZZ-Top and you start to get the "vibe" of the band... "Totally Savage" is: - Jim (the ROCK) Callaway on drums, a 30-year Atlanta pro and the "center" of the band. Jim's chops, experience and personal nature make him....well...."The ROCK". - Chad (Downtown) Brown... our 24-year old lead singer and bassist who plays, sings and performs like he's been at it for decades! If you use one word for Chad ... its "talent" ... maybe "magic". To quote most people who see him play ... "this guy rocks !" - Larry (Totally) Savage is the guitarist and songwriter for the band. Playing for over 30 years, he manages to blend blues, rock, southern rock, hard rock and fusion into a sound all his own, with a flair and finesse that is unmistakable and a passion for music which is unquenchable.

***** A blues band that rocks out or a rock band with the blues ? ***** It sure is fun tryin to figure it out! Give 'em a whirl ... you'll see for yourself.
