

Mp3 Unified Tribe - Listen To This

[DOWNLOAD HERE](#)

You've never seen or heard anything like this, they combine the orchestrations of yesterday with the sounds of today. 20 MP3 Songs POP: Today's Top 40, URBAN/R&B: Soul Details: Unified Tribe is an inspired collection of individuals. Members come from varying musical backgrounds bringing their own distinctive influences to the group. Varying in age and ethnicity, they reflect harmony that is found within diversity. The result is an eclectic sound that has evolved into a perfect blend of its Jazz and R&B roots and a newer Urban flavor. The highly anticipated second album, Mixed Messages, was released in May 2003. It is a collaboration by the entire Tribe that culminates their experiences and influences into a single project highly reminiscent of the band's New York roots. The record lends itself to the darker chord structures and the more intense R&B, Jazz and Funk sounds at the core of the group's style. This highly diverse album displays a wide spectrum of emotional and musical settings from song to song. It was this unlikely blend that spawned the album's name, Mixed Messages. There is certainly something for everyone on this album and many of the songs seem to effortlessly bridge the gaps between genres and generations. Look for their next album to be released in the Summer of 2005.
