Guitars Ringing, cowboys singing, Dudley's voice is a bell drawing people to the gospel of Roots music and Americana. 12 MP3 Songs FOLK: Folk Blues, COUNTRY: Country Folk Details: Western entertainer Will Dudley may sound like Gene Autry and come from John Denver's adopted home state, but not much about him is all that vanilla. His songs praise the spirit of the American west and the animals and people that helped to create the society we live in today. If you're a horse lover, he's for you. If you're a dreamer or see yourself as an adventurous, outdoors kind of person, his music will fit into your car's CD player.
