

# Tell-a-friend

[DOWNLOAD HERE](#)

Let your users visitors recommend your website to their friends. This script is perfect for just about any website. All your visitors need to do is fill in a simple form. You can make the body of the email say anything you want or let your visitors write a custom message. All emails sent will have a link to the page that is being recommended. This script can only be used on one website for each purchase. If you want to have it on two or more websites then you will have to pay again. Features Comes with a precoded tell-a-friend page. Redirects users to any thank you page you specify. If redirect pages aren't set it redirects to the default pages. Will only work if user is being sent from a website you allow. You can use auto or manual linking. Requirements Perl Sendmail compatible
